REFUTING CHARGES AGAINST TRINITY. COLONEL CRUGER'S REPLY TO DR. GUNN-THE CHURCH'S PROPERTY WELL CARED FOR.

COLONEL CRUGER'S REPLY TO DR. GUNN—THE
CHURCH'S PROPERTY WELL CARED FOR.

The attention of members of the Health Department was called yesterday to statements, made by Dr. R. A. Gunn at a meeting of the Constitution Club, on Wednesday evening, attacking the department and the Trinity Church Corporation on account of the condition of tenement houses owned by the corporation on the west side of the city. Dr. Guan said he had visited some of the tenement houses and had found them fifthy and Leeding repairs to such an extent that the lives of the occupants were in danger. Complaints which had been made to the Board of Health had been medected, he said. Dr. Moran Morris, of the Sanitary Purean yesterday showed to a Tribunk reporter a record of complaints which had been made against the tenement houses mentioned by Dr. Guan, and the books showed that the Trinity Church Corporation had obeyed orders to repair or clean the houses with reasonable promptness. Other members of the department said that nuisates in houses belonging to the corporation were abated as soon as orders were sent from the department. Persons who own buildings on leased ground belonging to the corporation sometimes refused to repair the buildings when the icases had nearly expired. In such cases, it was said, the Trinity mannagers preferred to let the briddings stand until the leases expired, and then cre-t new buildings.

When asked yesterlay as to the truth of the charges against Trinity Church, Colonei S. V. R. Crager, controller of the Trivity Church Corporation, furnished the following expanation: "Dr. Gunn's remarks show that he knows little about the condition of houses belonging to Trinity Church, or what is constantly being done to keep them in good condition. The first house referred to by the doctor is No. 34 Laight-st. Neither this house one the ground whereon it stands belongs to Trinity Church, one of all the other houses referred to by the occur is No. 34 Laight-st. Neither this

Neither this house nor the ground whereon it stands belongs to Trinity Church, and of all the other houses referred to, only one belongs to the church, No. 63 Walts-st. Dr. Gann's statements are most unwarranted, as are, also, the remarks made at the meeting by Mr. W. W. Chandler. I have had considerable experience in the management of real estate in this city, and I venture to say that no owner of tenement property pays more attention to the condition of his houses and the comfort of his tenants than the Corporation of Trinity Church. Large sams are spent each mouth in repairs. We are steadily improving the condition of the property, and the church cannot truthfully be charged with neglect. We have under our control between 350 and 400 houses and about double that number of tenants.

Ginden and his family have lived in two small rooms since Monday. They were turned out of their home at No. 10 idester st. for non-payment of rent. While they were on the street they took all the clothes they could spare from their bedies and pawned them to pay the rent of the rooms in Attorney-st. Ginden worked as a coat presser for J. Sobel, in Cannon-st., until two months ago, when he was discharged for lack of work. Nearly all the furniture has been sold for food. Since they have been in their new quarters they have had nothing to eat, except what the neighbors, who are also extremely poor, have given them. For two days they have had nothing to eat. When Ginden got up yesterday morning his four small children were haddlied together on the floor crying for bread. There was no finel to make a fire, and the wind howled in the little stove and made the room bitterly cold. Mrs. Ginden told him that the children would starve unless they got something to eat, and he seemed disconsolate. He stuffed up the cracks in the windows to keep out the wind, and wrapped up the children in an old blanket. He told them he would go out and try to get them something to eat. He got some paper and a pencil and wrote the letter that was found with him. Whien he started out he told his wife that if he was not back in two hours she need not expect him. On the way to the Bridge he begged the penny that paid his lare to the promenade. Toward evening two young men, sho retused to give their name, called upon Mrs Ginden and gave her \$12. They said that they cane from Brooklyn, and had heard of her distress. The poor woman was overcome by tenotion. She cannot speak English. Some fiel was berght, if he started in the stove, and for the first time thes week the little children got warm. A supply d milk and crackers was bought, and the little honths were fed until they could eat no more.

SHOOTING DOWN A MADMAN.

Michael O'Neill, of No. 130 Dykeman-st., Brobklyn, was sent to the Kings County Insane Asylum six months ago. On Wednesday he was discharged as cured, and reached his home about midright. He waked up his wife and children, and was admitted after some delay. Angered at this he began to fire a revolver. Mrs. O'Neill and her two daughters ran screaming into an adjoining apartment. The sound of the shooting and the screams called in two policemen, Murphy and Kennedy. They broke upen the doors and the madman met them with the muzzle of the revolver and fired twice at them, but without effect.

As O'Neill cocked the weapon a third time Kennedy fired his own revolver twice in quick succession. One of the bullets struck O'Neill in the nose and passed into his thorax, and the wounded man dropped his revolver and fell back. His weapon had been completely discharged. He had fired three shots at his wife and children. O'Neill's wound was of a serious character. Me was taken to the Long Island College Hospital, and the bullet was extracted. SHE THREW THE BABY OUT OF THE WINDOW.

The principal witnesses yesterday in the suit of Catherine Ratzer in the Hudson County Chronit Court, Jersey City, to recover \$10,000 damages from her step-mother for injuries sustained by a beating, were the plaintiff's father and step-mother. Her father testified that she had always been stekly, suffered constantly with headaches from the time she was a child. She never told him of the alleged assant and he knew nothing of it until he heard it from some one clae. Then he examined his daughter's head, but could find only a small zear abeut an eighth of an inch long. The defendant took the stand and began to give her version of the assault, but had not got for when she apparently burst into tears and sobbed convulsively. After waiting for a few moments Judge Knapp said sternly, "Compose yourself, madame, and proceed with your testimony." The witness removed the handkerchief from her eyes, which gave no evidence off the recent storm. She said:

"On the evoling of February 11, 1883, I rebuked Katle for some small offense. A few moments afterward Katle got up and threw my child out of the window. That made me angry, and I picked up the chair. The back of it came off and I struck her on the head with the piece that remained in my hand. She ran down stairs screaming 'Murder!' She did not faint. I suppose I intended to strike her with the chair when I picked tup, and I presume I would have done so if the lack had not come off."

Counsel argued the case, and it will be given to the jury to-day. SHE THREW THE BABY OUT OF THE WINDOW.
